Education

Massachusetts Institute of Technology, Cambridge, MA. 2016 –
Ph.D., Computer Science and Electrical Engineering
Advisor: David Sontag

Harvard-MIT Health Sciences and Technology, Cambridge, MA. 2017 –
Certificate, General Education Medical Sciences

Harvard University, Cambridge, MA 2010 – 2014
S.M., Computational Science and Engineering
A.B., Applied Mathematics

Honors

Rising Star in AI - Harvard University CRCS	2021
Rising Star in EECS - University of California Berkeley	2020
Rising Star in Machine Learning - University of Maryland	2020
NeurIPS Top 400 Reviewer	2019
Seth J. Teller Memorial Award for Excellence, Inclusion and Diversity	2018
Paul & Daisy Soros Fellowship Finalist	2018
Google Travel Grant	2018
Women in Machine Learning Travel Grant	2017
Derek Bok Certificate of Distinction in Teaching	2014
Grace Hopper Conference for Women in Computing Scholarship	2013
Program for Research in Markets and Organizations Fellow	2012
National Merit Scholarship	2010
Athletes for a Better World Medal	2010

Work Experience

Research Intern, **Microsoft Research**	2020
Machine Learning Engineer, **Dropbox**	2015 – 2016
Chief of Staff, **Dropbox**	2015
Data Scientist, **Dropbox**	2014 – 2015
Software Engineer Intern, **Knewton**	2013
Enumerator, **US Census Bureau**	2010

Research Experience

Clinical machine learning 2016 –
Advised by David Sontag (MIT)

Advance understanding of health through improved machine learning methods for disease progression, subtype discovery, fairness, and causal inference. Medical applications include health knowledge graph discovery, congestive heart failure, and intensive care unit mortality prediction. In collaboration with Beth Israel Deaconess Medical Center and Independent Blue Cross.

Normative appeal for causal models 2020
Advised by Solon Baracos and Hal Duamé III (Microsoft Research, FATE Group)

Formalize public policy motivations for causal models over predictive models and identify lack in current methodological advances of machine learning. Address gaps between the two, particularly related to questions of intervention, culpability, and aligned incentives for strategic behavior.

Digital discrimination of hosts on Airbnb 2012 – 2014
Supervised by Michael Luca and Ben Edelman (Harvard Business School)

Quantified causal monetary penalty paid by landlords due to racial and gender discrimination on online accommodations website Airbnb. Scraped website for pricing and profile data. Built statistical model to measure market imbalance and demand-side discrimination.
